

HUMAN GROWTH AND DEVELOPMENT
REVIEW QUESTIONS

People who are mentally retarded and developmentally disabled develop in the same way as other people do.

TRUE

FALSE

All people, whether disabled or not, need to be accepted as valued, productive members in our society.

TRUE

FALSE

Self-help skills are first learned in later childhood and early adolescence.

TRUE

FALSE

Delays in sensory motor skill development and communication skills could be utilized as a criterion for mental retardation.

TRUE

FALSE

Social skills acquisition could be a problem for people who are mentally retarded/developmentally disabled and might require specialized training.

TRUE

FALSE

Most adults in our society work, but people who are mentally retarded/developmentally disabled should not receive vocational training to hold real jobs.
